NFL Mode

Made by @Frittutisna

Player Card

- **Get every song right**:
  - If you're T1 or T4, this helps you **score** points when your team has **possession**
  - If you're T2 or T3, this helps you **stop** the other team when your team **doesn't** have possession
- **No need to do anything else; your Lobby Host and their Script does all the complicated stuff**
- If you're T1, you count for more, so give it your 110%
- Up to 25 songs @ 15 seconds = ~60 minutes
- 0-40 Watched with Random Rig Distribution

Lobby Host Card

Install the **Script** through TamperMonkey, then:

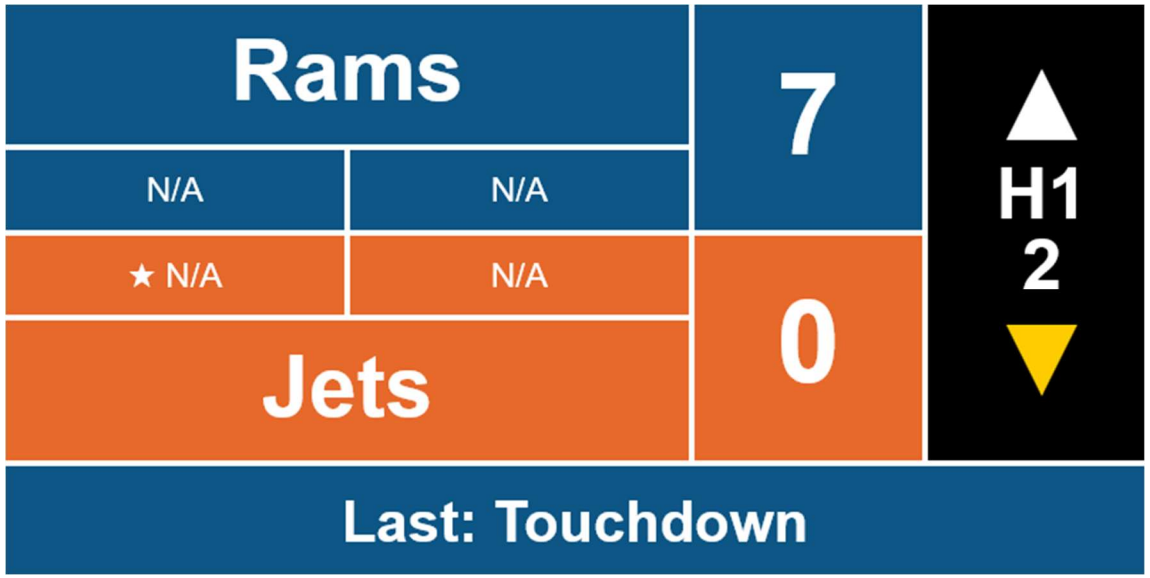
1. Copy and apply **this** lobby setting code
2. Invite players to the lobby and ensure they're lined up correctly (Away then Home, **T1-T4-T2-T3**), then type **/nfl howTo** and follow the instructions there
3. Type **/nfl start** after everyone is ready. Type **/nfl resetGame** if you started by mistake, return to lobby, then type **/nfl start** to restart
4. After each Game, open the downloaded **Scoresheet**, copy the top row, then paste it in **#game-reporting** with the Scoresheet and **JSON**
5. Repeat from **Step 1** for a new lobby, from **Step 2** for the same lobby and a new opponent, or from **Step 3** for the same lobby and opponent

Tour Host Card

1. Open the tour **signup** prompt and ask for team **requests/blacklists**
2. After the player list settles, find the **Balancer** and follow the instructions there
3. If needed, ask for 1 **lobby host** volunteer from each team
4. Read the **Format** section and prepare the Challonge
5. Post the Balancer results on **#tour-information**
6. Note the results of each game in **Challonge**
7. If needed, **ping** teams that advance to the Championship Games/Super Bowl
8. Announce the **results**

Example Card

Rams					Jets			
T1	T4	T2	T3	◀	T1	T4	T2	T3
2	1	1	1			2	1	

(5-3) 3-1 Rams Touchdown 7-0 |
Next Possession: Jets → |
Win Probability: Rams 62.30% |
Scorebug: [Link]


Rams T1-4 and Jets T2-3 got Song 1 right. This makes the TDIFF 5 – 3 = +2 for the Rams. Since abs(TDIFF) < 4, we now look at the DIFF which is 3 – 1 = +2 for the Rams. This means they get a Touchdown, making the score 7-0. The Jets will have possession (▼) next song, where their T1 and T4 will face against the Rams' T2 and T3. Right now, the Rams has a 62.3% chance to win the game
