

# NFL Mode

Made by @Frittutisna

# So, what is NFL Mode?

NFL Mode is all about **flipping 2v2s**. Score **points** when your team has **possession** and stop the other team from doing so to win it all!

# What are the lobby settings like? How long does it take?

**Up to 25 songs long**

Each song is 15 seconds  
long

Watched with Random  
Rig Distribution

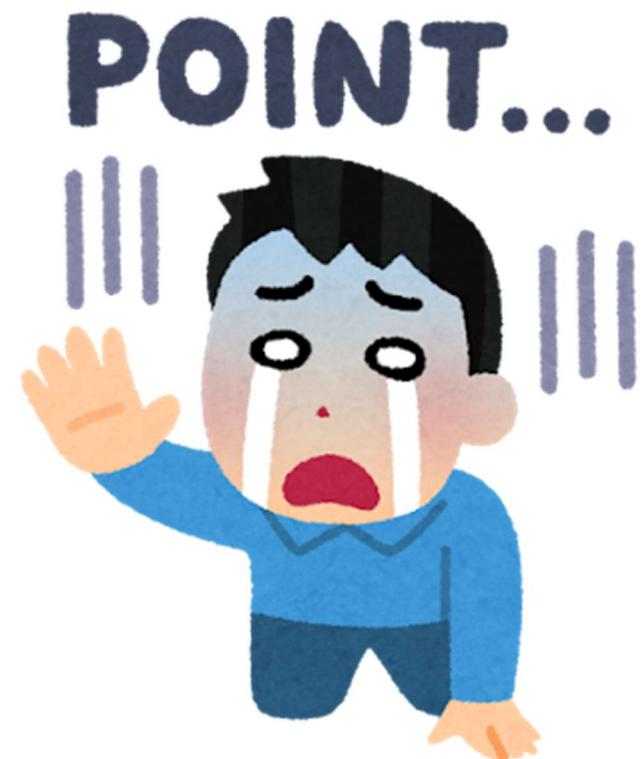

0% - 40% difficulty

Takes about **1 hour**

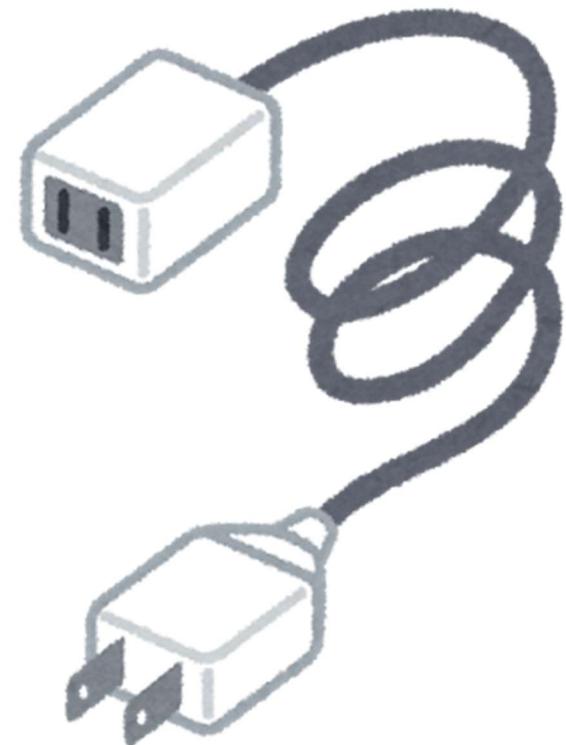

# Up to 25 songs long?

Yes: The first 20 songs make up **Regulation**. If a team can no longer catch up in Regulation, **Mercy Rule** is triggered for the leading team

# But that's only 20, though?

Yes: The last 5 songs make up **Overtime** that are only played if the game remains tied over those 20 songs

I heard you said points?  
What are those and how do I get them?

Points determine how well your team is doing.  
The team with more points **wins** the game

You get points by having the **(T)DIFF** calculation be in your favor

# (T)DIFF?

## What on Earth even is that?

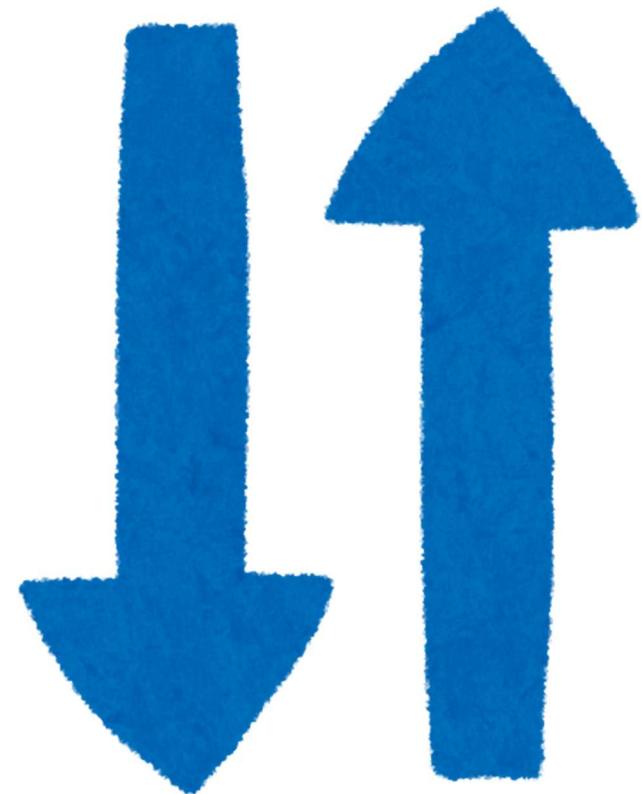

NFL Mode has a two-stage check to decide song outcomes: TDIFF and DIFF. Check TDIFF first by subtracting the Defending Total from the Attacking Total

# Attacking? Defending? What even are those?

Each song, one team is Attacking and the other is Defending. The Attacking team has **possession**

This swaps after every song except after an Onside Kick or before Song 11

# Okay, what do I do with the TDIFF again?

If it's +4 or higher, it's an **Onside Kick** for the Attacking team. They get 7 points and **keep** possession

If it's -4 or lower, it's a **House Call** for the Defending team. They get 7 points

# What if it's not that big?

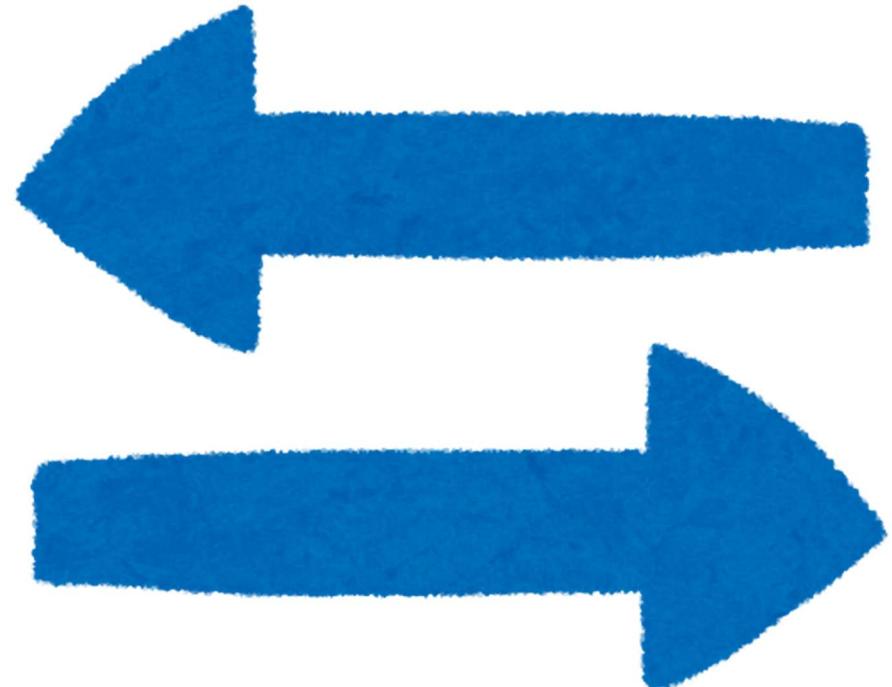

Otherwise, check for the **DIFF** by subtracting the Defending DP Total from the Attacking OP Total

Result	DIFF	Att.	Def.	
TD + 2PC	3	8 points	0 points	
Touchdown	2	7 points		
Field Goal	1	3 points		
Rouge	0/-1	1 point		
Punt		0 points		
Safety	-2	0 points	2 points	
Pick Six	-3		6 points	

# OP? DP?

## What even are those?

Each team has 2 Offensive Players (OPs) and 2 Defensive Players (DPs). OPs consist of the team's T1 and T4, and they take the first two slots of the team. DPs take the other players and slots

# Also, what even is a Rouge? Why is there CFL in my NFL?

It's sad to see a team knowing a song but not getting anything for it because the DIFF isn't in their favor. They get **1 point** if it would have been a **Punt** but only one team got the song right

# Anything else I should know about?

Yes: The **highest-rated** player of each team (the Captain) get a +1 bonus

In Overtime, getting an Onside Kick or a House Call immediately wins the game. Otherwise, it's **next point wins**

# Let's see how NFL Mode works in action:

20XX YX00 Rams Touchdown 7-0 | Next Possession: Jets → |  
Win Probability: Rams 62.07%

20XX represents how the team on the left (Slots 1-4, Rams) did. This means only Player 1 got the song right, but Player 3 or 4 getting it right wouldn't have changed the outcome

YX00 represents how the team on the right (Slots 5-8, Jets) did. This means only Player 5 got the song right, but it wouldn't have changed the outcome if they missed

# Let's see how NFL Mode works in action:

20XX YX00 Rams Touchdown 7-0 | Next Possession: Jets → |  
Win Probability: Rams 62.07%

The TDIFF is inconclusive ( $2-2=0$ ), so we look at the DIFF. Since  $2-0=2$ , this means the Rams get a Touchdown worth 7 points, making the score 7-0

The Jets will have possession for the next song, and right now, the Rams are favored to win with 62.07% chance

# What happens if it's tied?

NFL games **can** end in a tie even after Overtime, but if a winner **must** be decided, use the following tiebreakers. Note that Tiebreakers 1-4 only account for **Overtime** results

1. Weighted Total Correct, counting Captains twice
2. Captains (Slots 1 vs 5)
3. T2s (Slots 3 vs 7)
4. T3s (Slots 4 vs 8)
5. Defending Team for Song

# How does this tour work?

For **2** teams: Play a best-of-7 series. The team that gets **4** wins is the winner

For **4** teams: Play a double round-robin. The top 2 teams face off in the Super Bowl

For **6** teams: Play a single round-robin. The top 4 teams advance to the Championship Games, and the 2 winners face off in the Super Bowl

For **8** teams: Play a double round-robin in 2 conferences. The conference winners face off in the Super Bowl
